Dear Author(s),

Thank you very much for submitting your research :

Editorial Board’s Selection and Revision Invitation stages. The first hurdle is an editorial screening which finds that the submission is suitable for the aims and to revise and restructure the manuscript (in a **combination** of the Editor and the Editor-in-Chief). Please be noted that only about 20% of the submitted manuscripts are accepted for publication. **Congrats!** This revision opportunity is your case. **The manuscript is well written, good presentation of English, firm and clear, and follows the journal template.** Only after careful consideration by the Editor and peer reviewers.

Article Publication Charge (APC): JAFEB is an Open Access journal which involve costs including those pertaining to setup an editorial board, through peer-reviews, editing, publishing, maintaining the journal. **“Article Publication Charge” (US dollar \$500 or 500 Euro)** is a charge for JAFEB whether the article is rejected, or accepted in favor of publication on the journal then an official invoice for paper gets accepted for publication, **any payments are possible publication.]**
