Dear,
Maulidyati Aisyah:

We have reached a decision regarding your submission to Jurnal Akuntansi dan Auditing Indonesia, "DETERMINANT OF INTENTION TO USE E WALLET USING TRAM MODEL".

Our decision is to: Revision Required

Please note the following:
Revise your script based on reviewer comments at the bottom of this letter. Your revision text must follow the JAAI guidelines. Please upload the revised script to your account no later than 18 February 2021 and notify us via email to editor.jaii@uii.ac.id

Dr. Rifqi Muhammad
Editor in Chief

Comments of Reviewer:

Title: OK

Abstract:

- It's better to describe technique of data collection then the number of respondents that are collected.
- Keyword : remove behavioral and TRAM
Mention all of the variable (optimism, innovativeness, discomfort, insecurity)

Introduction

- ... on the app... it's common?
- In this study, the results showed that the Technology Readiness Index only affects the Perceived Ease of Use variable, while the Perceived of usefulness variable is influenced by the characteristics of technology. To show the study results should be better on the discussion an conclusion. It's not common; the paper also already mentioned on the abstract. This paper doesn't follow the template of JAAI yet and common template of a quantitative paper (Introduction, Theoretical Framework and Hypothesis Development, Research Method, Results and Discussions, Conclusions).
- For example : the paper illustrates Table 1, it should be better on the Theoretical Framework section no in the introduction section.
- The paper will be better to describe how every hypothesis are developed. This paper doesn't show the hypothesis development clearly yet.
- H5: PEOU has positive effect on Intention to use e-Wallets.

Research Method

- The minimum number of samples needed in this study is 10 times the largest number of measurement indicators in one of the variables (Hair, Ringle, and Sarstedt, 2011)
Please use the latest literature.
- The authors didn't mentioned how to collect the data (how to distribute the questionnaire, how make sure that the respondents have already used the e-wallet products).
