We have reached a decision regarding your submission to Jurnal Akuntansi dan Auditing Indonesia, "Determinants of Fintech Adoption and Its Benefits in Organizations in Indonesia".

Our decision is: Revisions Required

Reviewer A:

Comments (Pros):

1. The paper has good flow of arguments
2. The research brings novelty in terms of adoption of fintech in Indonesia

Comments (Cons):

1. The English needs to be improved. It is suggested to use proof read services or software such as Grammarly.
2. In Table 4, there is a title "T Test...". Are you sure? I do not find any t-test in the paper, since you are using SEM. Cek all t-test words.
3. Please check the indentation
4. Please explain the **Fintech Adoption** construct in more detail. Which fintech are you talking about? all fintech? It has an implications on typical sample respondents that you look for. **Fintech Adoption** can be different in the level of sophistication and frequency. Do you differentiate them? why or why not?
5. Please explain how do you administer the questionnaire and who are your respondents?
